

Conditional background-only Asimov limits

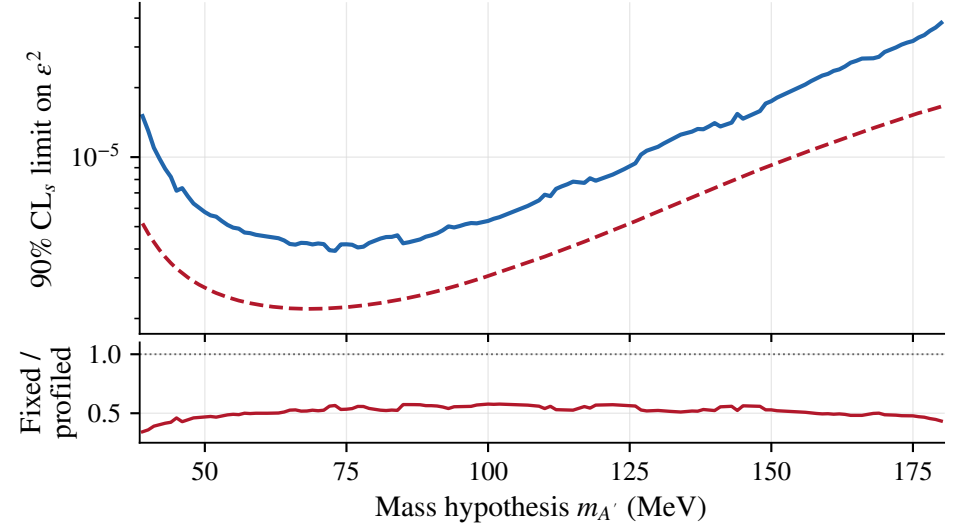

Frozen v4.9.12 inputs; identical masks, signal templates and yield conversion

— Gaussian profile (same solver) - - - Fixed GP mean (uncertainty omitted)

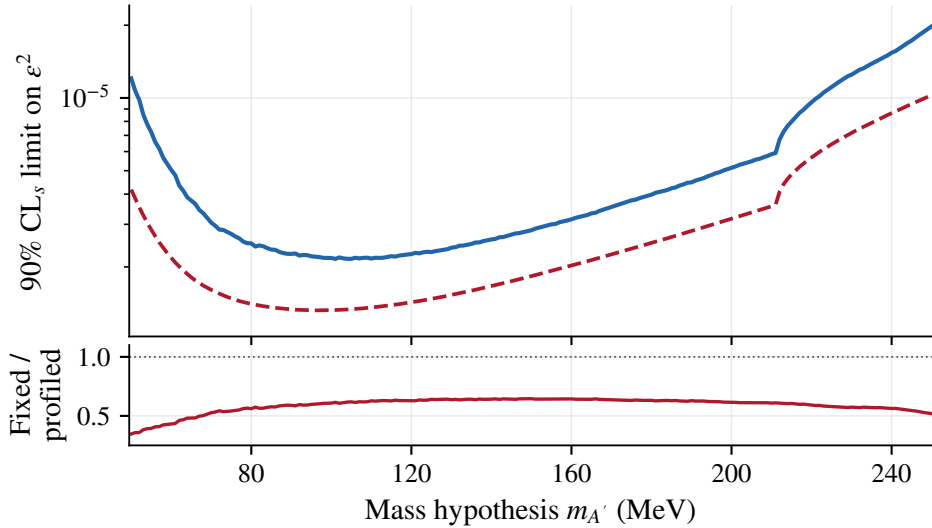

2015, full sample

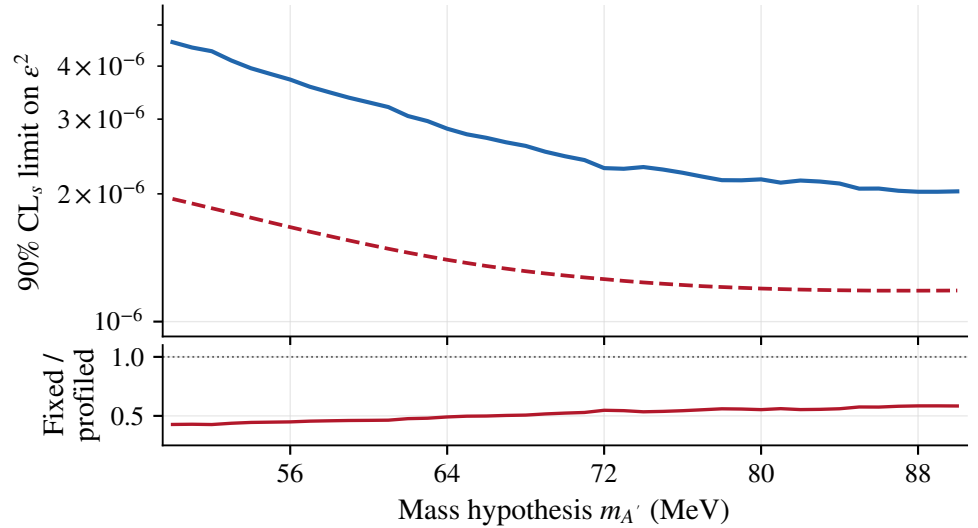

2016, full sample

2021, 10% sample

All three, shared coupling

Deterministic reference at the GP mean; not expected-toy bands or validated sensitivity.

2016 and the combination inherit the disclosed numerical exception. The dimuon correction is applied once.
