

Combination limit-tail diagnostics and analytic local discovery p-value

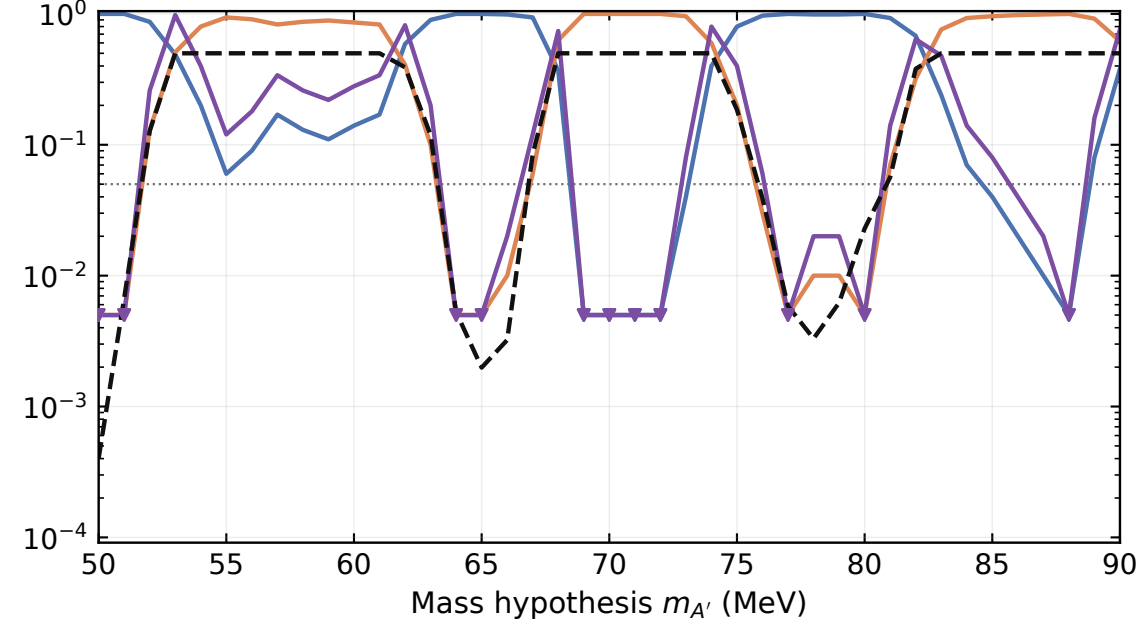

ρ_{strong} ρ_{weak} ρ_{two} -- analytic local p_0

fixed-mass p-value or limit-tail fraction

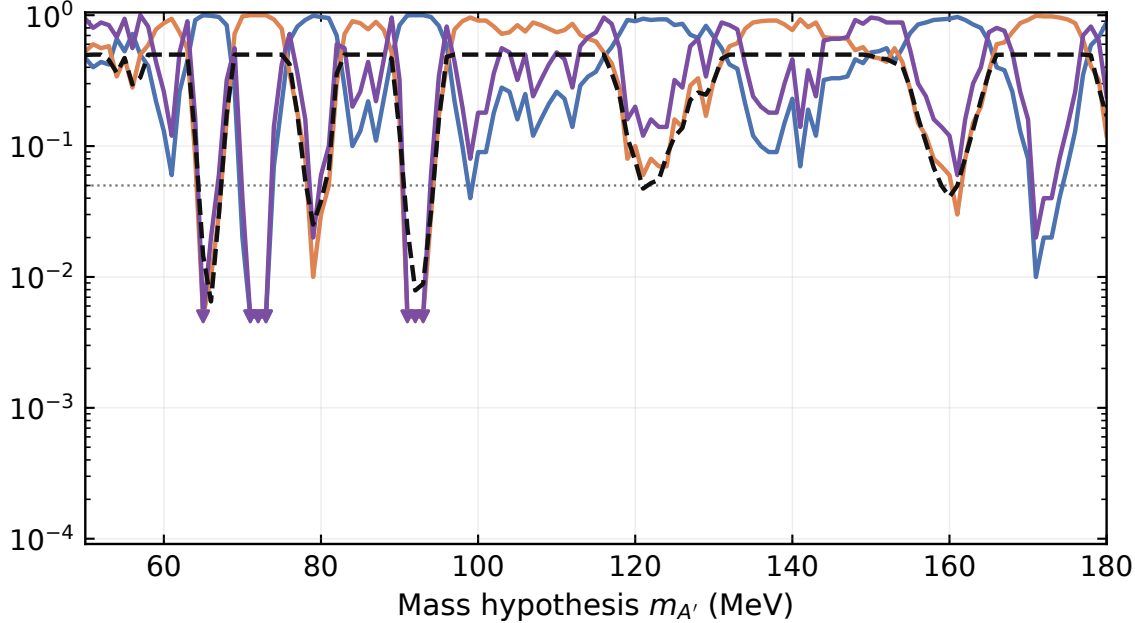

2015 full + 2016 full

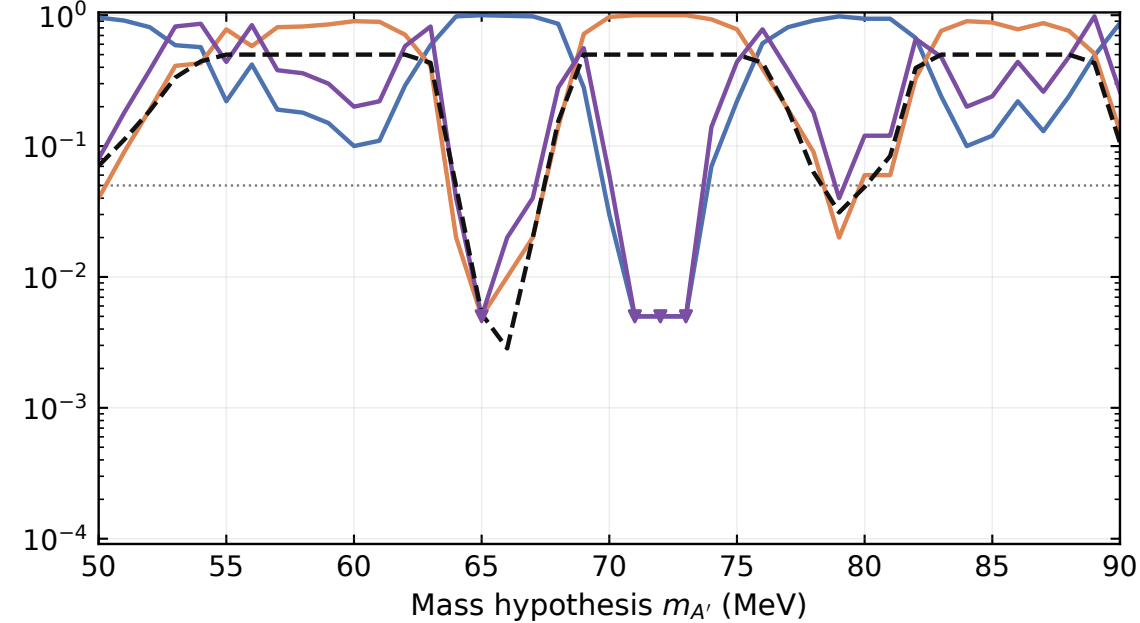

2015 full + 2021 10%

2016 full + 2021 10%

2015 full + 2016 full + 2021 10%

One-sided empirical fractions use 100 toys per mass (resolution 0.010); a zero count is drawn as a downward triangle at 0.005. The dotted line marks 0.05.
